Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Claims Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 20-43 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Regarding claim 20, the claim recites the limitations "determining the maximum additional spare bandwidth needed... connection with the available bandwidth for each of the links" from lines 5-11, however, there is insufficient written description to inform a skilled Artisan that Applicant was in Possession of the Claimed invention as a whole at the time the application was filed.

Regarding claim 30, the claim recites the limitations "evaluating bandwidth required for a proposed connection.... Capacity to support same in the at least on failure situation" from lines 3-7, however, there is insufficient written description to inform a skilled Artisan that Applicant was in Possession of the Claimed invention as a whole at the time the application was filed.

Regarding claim 33, the claim recites the limitations "apparatus for accepting a proposed connection only in the presence of adequate bandwidth notwithstanding at least one failure on one of the paths" from lines 4-5, however, there is insufficient written

description to inform a skilled Artisan that Applicant was in Possession of the Claimed invention as a whole at the time the application was filed.

Regarding claim 36, the claim recites the limitations " at least a first pair of ports for ...bandwidth requirements, if a requested connection is accepted and if a link fails", from lines 2-6, however, there is insufficient written description to inform a skilled Artisan that Applicant was in Possession of the Claimed invention as a whole at the time the application was filed.
